Excellence in Business Honoree - Manufacturing

Barry Levin, Snak King's CEO is quick to share such glories with his dedicated staff of employees.

"These are some of the most important and exciting times in Snak King's history," Levin recently said. "Our passion to produce the best snack foods with the highest quality on the market today is clearly reflected in the consistent strong performance in all our snack categories. Excellent performance, however, does not happen on its own; our people make it happen. In order to sustain this level of success, we need to ensure that we continue to attract, retain and develop great people in all areas of our business."

The passion for creating and distributing quality snacks - made by an excellent team of employees, is what has helped Snak King be named this year's Excellence in Business Honoree for Manufacturing.
